

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

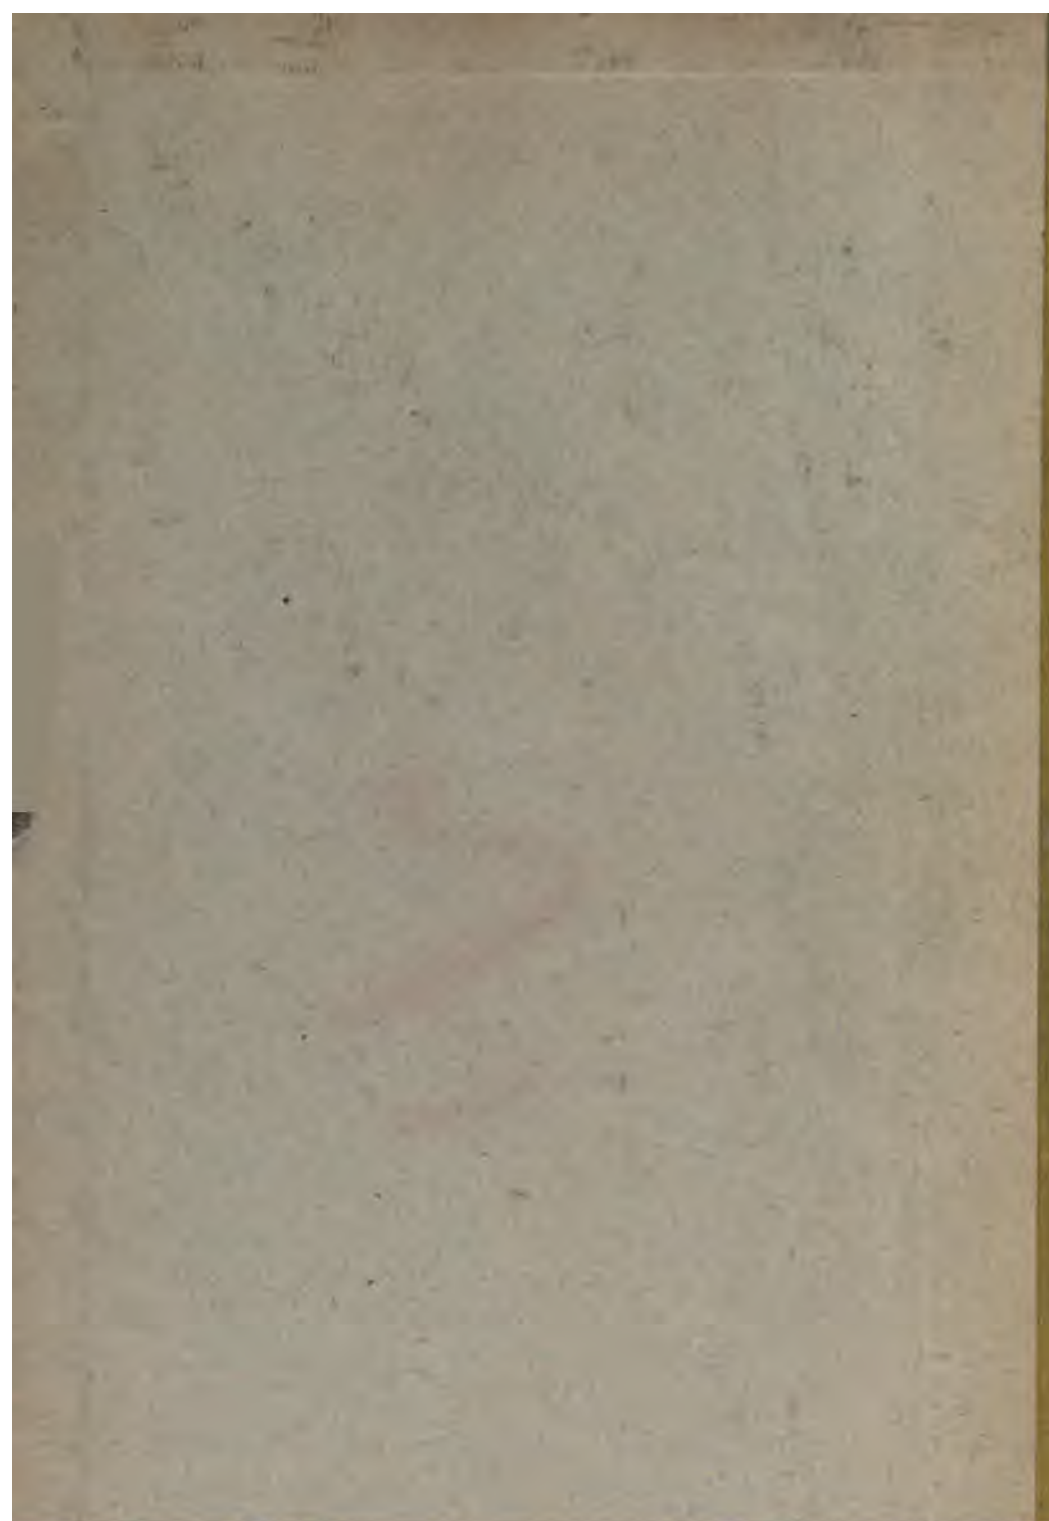

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT

OF THE

Chief Commissioner of Public Works

From October 31st, 1901, to November 1st, 1902.

*To His Honor, the Honorable Jabez B. Snowball,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR,—

I have the honor to submit herewith my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from October 31st, 1901, to November 1st, 1902.

Statements Nos. 1 to 4, inclusive, in Appendix A. are abstracts of all payment made for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all receipts and payments for the past year.

The following is a comparison of the expenditure for the past year, compared with the previous year:—

No.	PAST YEAR	PREVIOUS YEAR
1. Great Roads and		
Bridges.....	\$62,917 61	\$93,371 30
Freshet.....	71,048 74	60,326 80
Bye Roads....	80,709 33	86,609 94
	<u> \$214,675 68 </u>	<u> \$240,308 04 </u>
Permanent Bridge Acct. under		
Act Ass. 2 Ed. VII Cap 14,.....	81,491 69	
2. Legislative and other Build-		
ings and Gov't House.....	7,323 71	9,968 13
		Sloyd Room, 275 71
3. Lunatic Asylum.....	9,563 10	6,433 02
Judges Court Room, St. John.	122 00	102 16
Admiralty Court.....	405 44	
Rent, St. John Rooms,.....	312 50	
Coronation,.....	258 96	
Fountain,.....	249 89	
4. Steam Navigation,.....	9,682 50	8,500 00
Artesian Wells.....		364 82
5. Departmental Expenses,.....	791 41	679 31
6. Miscellaneous Account including		
Trav. Expenses, Printing and		
Binding,.....	1,387 76	1,383 63
Mail, Legis. Cont. &c.,.....	273 13	232 61
	<u> \$326,447 77 </u>	<u> \$268,247 43 </u>
Permanent Bridges, under Act of		
Assembly, 59th Vict. Cap. 3, as		
per Statement,.....	66,929 07	34,192 06
	<u> \$393,376 84 </u>	<u> \$302,439 49 </u>
In the foregoing amounts for Great		
Roads and Bridges, the propor-		
tion charged to annually appoint-		
ed Supervisors, is.....	\$16,482 46	
The greater portion of this is, as here-		
tofore, for road repairs, culverts		
and commission.....		
Add amounts expended on bridges		
under special supervision, as per		
Statement No. 2, App. A., and		
Freshet account,.....	110,020 90	
Mis. Spec. Exp. as per Statement No.		
3, App. A.....	7,462 99	
	<u> </u>	<u> \$133,966 35 </u>

Amount paid on acct. Bridges, under Act of Assembly, 59th Vict. Cap. 3.....	66,929 97
Amount paid on acct. bridges under Act of Assembly 2 Ed. VII. Cap. 14,.....	81,491 69

LEGISLATIVE AND OTHER BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year, amounts to.....	\$5,354 17	
Normal School Building,.....	1,704 60	
Lunatic Asylum,.....	9,563 10	
Gov't House.....	264 94	
		\$16,886 81
Judges' Court Room,.....	\$ 122 00	
Admiralty Court,.....	405 44	
Rent St. John Rooms,.....	312 50	
Coronation,.....	258 96	
The Fountain,.....	249 89	
		1,348 79
		\$18,235 60

The expenditure on Roads and Bridges for the past year has been exceptionally large, caused by payments on many uncompleted freshet contracts from last year, and damage done by freshets of 1902.

As was shown in last year's Report, the payments on account of freshets, amounted to \$60,326 80. This year's expenditure is \$71,048 74, and there are still some quite large amounts to be paid in order to wipe out the disastrous effects of the freshets of 1901 and 1902.

Most of the bridges now being built are of a permanent nature and many are covered, so that they will last for years.

A detailed statement will be found in this Report, of the expenditure of \$71,048 74, caused by freshets, also of amount paid on bridges under Act of Assembly 2 Edward VII, Cap. 14, namely \$81,491 69.

RE WHARVES—Several wharves were also carried away and damaged by freshets, which necessitated a large expenditure.

We regret to say the Dominion Government has not yet recouped this Department for half cost of wharves, which we had reason to believe would have been done last year, but expect this will be done in the near future.

A list of tenders for the various bridges for which calls were made during the past year, will also be found in this Report.

The expenditure on account of Public Buildings and Lunatic Asylum has somewhat increased during the year. Some of the ceilings in the Departmental Building were found unsafe and required to be sheathed, which necessitated quite an expenditure.

A great deal of extra work was also done at the Lunatic Asylum, which will be explained in Mr. Quinton's report.

LIGHTING AND HEATING—The expenses of lighting and heating the different Departments costs a very large amount, and some new system of lighting should be adopted. This, the Department intends taking into consideration another year.

I have the honor to be Sir,

Your Obedient Servant,

C. H. LABILLOIS,
CHIEF COMMISSIONER OF PUBLIC WORKS.

To the Honorable The Chief Commissioner of Public Works;

Sir;—

I have the honor to submit my annual report covering a summary of the work completed by your Department at the Provincial Lunatic Asylum during the current year.

MAIN BUILDING

My efforts here have been in the direction of repairs to the heating, cooking and plumbing apparatus.

The heating boilers have been thoroughly overhauled and re-tubed and a number of rivets replaced in the large hot water boiler in the engine room.

The steam piping has also been cross connected so that the electric engines can be supplied with steam from the heating boilers whenever it becomes necessary to shut down the electric boilers for inspection or repair. The fire brick linings in the furnaces have been renewed wherever necessary.

In the East wing the plumbing which has been in bad condition for sometime past, has been thoroughly renewed, cement floors substituted for wood in the water closets, with scupper holes for washing down and carrying off the overflow from the hoppers in case these clog.

Brick and cement slop sinks have been built in each room, hard wood floors laid in bath rooms and pantries and porcelain lined bath tubs, sinks and basins placed.

In the kitchen one of the old steam cooking boilers having rusted out it has been replaced by an 80 gallon steam jacket cook-boiler and all the water pipes from the cooking boilers have been renewed.

The hoppers, cisterns, sinks, bath tubs and basins used as well as the steam jacket cook boiler are all of the newest type and best material. New hard wood floors have been laid in several of the wards and this work is being continued.

A number of the wards have been repainted and the plastering repaired where required,

Part of the gravel roof on the South wing and a portion of the slate roof have been repaired.

The large cesspool at the barn near the Bridge Road having become offensive, has been done away with and the sewer connected direct with the overflow to low water mark by means of a suitable catch basin and strainer. Other necessary repairs were also made to the sewers.

ANNEX

At the Annex in the East wing the plumbing has been overhauled and new porcelain lined bath tubs, closets and cisterns installed and in the bath rooms wooden floors have been replaced with cement.

The heating apparatus has been repaired and a portion of the underground steam piping leading from the boiler house to the barns wherever rusted out has been renewed.

In the kitchen, a new steel ceiling has been put up and I would suggest for the future the use of steel for ceilings throughout the Institution whenever required.

The stairs leading from kitchen to yard have been rebuilt and new treads placed in basement stairs.

A truck pitching machine has been set up in new hay and stock barn and truck and rope renewed on pitcher in main barn.

The engine and threshing machine have been put in good shape

All outside sashes belonging to the building have been painted with two coats of paint.

RECOMMENDATIONS

In my last Annual Report I set out the urgent necessity for the immediate construction of a cold storage warehouse. the plans for which were completed by the late R. C. John Dunn.

The construction of this on account of the scarcity of labor and our requirements for the employment of the staff in other directions, I was obliged to defer, but as it is imperative that the work be undertaken as soon as possible I will, with your permission, attend to it promptly as soon as the building season opens.

I would further recommend that the heating apparatus in the East wing at the main building be put in shape and that the wringing machine and one of the washing machines in the laundry which are twenty years old and about worn out, be replaced by larger machines of the newest type.

The most pressing requirement at the Annex is the erection of a second story on the West wing (as provided for by the original plans of the late Mr. Dunn) and is most necessary on account of the over-crowded conditions both in the main building and the Annex.

Other requirements are bath tubs, closets and basins and as referred to in my previous Reports, an improved water and lighting service. I would suggest in connection with the former the boring of an additional Artesian well to be operated by a wind mill pump to deliver to an elevated tank and supply by gravity.

For the lighting service I would suggest an incandescent elec-

tric system to be operated from the surplus electric power at the main building.

Two steam jacket cook boilers are necessary in the kitchen to do away with the inconvenience of cooking large quantities of food in tin boilers on the range.

Further extensions are also required to the farm buildings on account of the natural increase in stock and farm productions,

I have the Honor to be

Your Obedient Servant,

W. A. QUINTON

Saint John, N. B.,

December 31st 1902.

To the Honorable the Commissioners of the Provincial Lunatic Asylum

GENTLEMEN :

Herewith I beg to submit my annual report pertaining to agricultural productions at the Provincial Lunatic Asylum during the present year.

The usual amount of work in the direction of increasing the crop area has been carried on in the way of bringing in new land, extending the drainage system and erecting new fences.

For fertilizing purposes I have had opened on the farm a deposit of black mud which in conjunction with our manure forms a valuable compost.

The yield of produce has been fully up to the average and of the roots turnips made an excellent showing.

I append a statement showing the farm productions at the Institution for the year.

CLASS OF PRODUCE.	QUANTITY
Potatoes.....	2,638 bushels
Turnips.....	3,650 "
Carrots.....	720 "

Mangolds,.....	150	"
Beets,.....	400	"
Parsnips,.....	300	"
Celery,.....	14,600	heads
Squash,.....	180	"
Hay,.....	110	tons
Straw,.....	109	"
Fodder,.....	125	"
Oats,.....	1,525	bushels
Pork,.....	4,523	lbs.
Lard,.....	191	"
Milk,.....	59.817	quarts
Eggs,.....	250	dozen

Together with corn, beans, peas, apples, tomatoes and small fruits for daily consumption.

I have the honor to be,

Your Obedient Servant,

W. A. QUINTON.

Saint John, N. B., December 31st, 1902.

REPORT
OF THE CHIEF COMMISSIONER
OF PUBLIC WORKS.

REPORT

OF THE

Chief Commissioner of Public Works

From October 31st, 1902, to November 1st, 1903.

*To His Honor, the Honorable Jabez B. Snouball,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR:—

I have the honor to submit herewith my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from October 31st, 1902, to November 1st, 1903.

Statements Nos. 1 to 4 inclusive, in Appendix A are abstracts of all payments made for Great Roads, Bridges, and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all receipts and payments for the past year.

The following is a comparison of the expenditure for the past year, compared with the previous year:—

No.	PAST YEAR.	PREVIOUS YEAR.
1.	Great Roads and	
	Bridges,.....\$70,811 46	\$62,917 61
	Freshet,.....	71,048 74
	Bye Rcals, ... 83,994 28	80,709 33
	<u>\$154,805 74</u>	<u>\$214,675 68</u>
	Permanent Bridge Account under	
	Act of Ass. 2 Ed. VII Cap 14 ...	81,491 69
	Permanent Bridge Account under	
	Act of Ass. 59th Vic. Cap. 3,	66,929 07
	Permanent Bridge Account under	
	Act of Ass. 3rd Ed. VII, ap. XIII, 106,882 78	
2.	Legislative and other Public	
	Buildings, and Gov't House, 9,636 44	7,323 71
3.	Lunatic Asylum, 6,187 78	9,563 10
	Judges Court Room, St.	
	John.....	122 00
	Admiralty Court,.....	405 44
	Rent St. John Rooms,.... 75 00	312 50
	Coronation,.....	258 96
	Fountain,..... 507 91	249 89
	Local Improvements,..... 128 25	
4.	Steam Navigation,..... 9,929 83	9,682 50
5.	Departmental Expenses,.... 571 95	701 41
6.	Miscellaneous acc. including	
	Trav. Expenses, printing	
	and Binding,..... 1,595 65	1,387 76
	Mail, Legis. Cont. etc., 499 49	273 13
	<u>\$ 29,492 30</u>	<u>30,280 40</u>
	\$291,180 82	\$393,376 84

In the foregoing amounts for Great
Roads and Bridges the pro-
portion charged to annually
appointed Supervisors, is 12,475 63

The greater portion of this is, as heretofore, for repairs to roads, culverts, etc., and commission.	
Add amount expended on bridges under special supervision, as per statement No. 2, Appen- dix A,	53,347 44
Mis. Special Exp. as per statement No. 3,	4,988 39
	<hr/> \$70,811 46
Amounts paid on Account of Bridges under Act of Ass. 3 Ed. VII. Cap. XIII, entitled "An Act to make further pro- vision for Permanent Bridges and other works of a perma- nent character,	106,882,78

LEGISLATIVE AND OTHER BUILDINGS.

The ordinary expenditure on Legislative Buildings and Public Offices for the past year amounts to	6,717 09
Normal School,	2,652 51
Lunatic Asylum,	6,487 78
Government House,	326 81
	<hr/> \$16,184 22
Rent St. John Rooms,	75 00
Fountain,	507 91
Local Improvement,	128 25
	<hr/> \$ 711 16
	<hr/> \$16,895 38

The Department has endeavored to keep down as much as possible the expenditure on roads and bridges this year so as not to exceed the estimates.

Many bridges, however, have given out completely during the past year, and a much larger expenditure is expected in the year 1904.

The expenditure on wharves on the St. John River necessitates a large expenditure and which has heretofore been borne to a large extent by this Department. It is proposed to ask for a special grant for wharves throughout the Province.

A list of tenders for the various bridges for which calls were made during the past year, will be found in the Report.

Some quite extensive repairs will be required on the Lunatic Asylum, as will be seen by Mr. Quinton's Report in another column.

The expenditure on Public Buildings for the past year has been kept within the appropriation.

I have the honor to be, Sir,

Your obedient servant,

C. H. LABILLOIS,

CHIEF COMMISSIONER OF PUBLIC WORKS.

Department of Public Works, Fredericton, November 1st, 1903.

To the Honorable The Chief Commissioner of Public Works;

Sir;

I now beg to submit my usual annual report covering the work done under the direction of your Honourable Board during the current year at the Provincial Lunatic Asylum, comprising new erections, needful repairs and touching as well upon recommendations for further requirements for your consideration.

MAIN BUILDINGS.

The new structure referred to in my last report to be undertaken during the present year has been completed.

It is a very commodious building of brick and cement with ice

house, meat, bread and other rooms, and fills a long felt want for the proper care of perishable provisions.

All work in connection with this, other than masonry and roofing, was done by the staff of the institution.

As further recommended last year, the old washing machine in the laundry which was worn out, has been replaced by a new one made by the Massey Harris Co., which gives good satisfaction.

The old laundry machine has been placed in good condition as well as new coils put in for drying purposes.

Owing to the accidental burn out in one of the electric generators, it has been necessary to have an armature rewound.

This is the first expense for repairs in connection with the plant since its installation five years ago.

The usual repairs necessary for the proper maintenance on the building in the way of new ceilings in rooms, plumbing and piping, have been undertaken; the expenditure being confined to cost of material only.

I may here state, that owing to the very large amount of piping in use at the institution, the annual repairs must necessarily be considerable.

Repairs have also been made on the slate roof of the main building. A large amount of new hardwood flooring has been laid in the wards, and more of this will be placed as required.

ANNEX.

At the annex a new cellar has been made under the old barn with stone walls and abutments, and new floors laid in root cellars and cattle sheds.

The steam piping used in connecting with the threshing machine has been renewed.

In the annex building the roofs and ceilings have been repaired, and a new floor laid in the kitchen. The building on the Southern side has been repointed with cement and all necessary repairs made.

RECOMMENDATIONS.

On the heating apparatus in the North wing at the main building, which I referred to in my last Annual Report as needing to be put in proper condition, I have only been enabled during the present year to make temporary repairs, and as it is imperative that this be at once attended to, I will with your permission, give it the necessary attention as soon as opportunity will permit.

A new roof on the Power House is a necessity, and repairs will be required on the slate roof of the main building.

Around the cornices of this latter, my recommendation is that metal be placed to serve as a surer preventive against leakage.

I would also propose a comparatively inexpensive change in the system of electric wiring, which would admit the placing of a separate electric switch to control the lights in each apartment and which would result in increased economy in the operation of the plant and materially add to the comfort of the inmates.

Further renewals to the plumbing, as necessarily will want to be made from time to time.

The matter of an improved water and light supply at the Annex, to which I drew attention in my previous reports, is still in abeyance, and I would be pleased to receive your instructions thereto.

As a new roof on the West wing of the Annex will be required during the coming season, may I suggest in the interest of economy, that the second story of this wing be at the same time constructed as provided for by the plans of the late Mr. Dunn, and previously referred to by me.

As the barn accommodation at the Annex is still inadequate owing to the increase in farm products and stock, another barn would be of great advantage.

Proper poultry houses should also be provided here, as those in use are hardly fitted for their purposes.

Among minor requirements at the Annex, are a washing machine

for the laundry, a new kitchen range and two steam jacket cook boilers, all of which I would respectfully ask permission to purchase.

I have the honor to be,

Your Obedient Servant,

W. A. QUINTON.

Saint John, N. B.

December 31st, 1903.

To the Honorable The Commissioners of the Provincial Lunatic Asylum.

Gentlemen:—

I beg herewith to submit my annual report with respect to Agricultural operations at the Provincial Lunatic Asylum during the present year.

The usual amount of work has been done in the way of adding to the crop acreage by the bringing in of new land, and in this connection a large quantity of wood has been cut and hauled, and a number of drains and fences laid. These latter mostly along the track of the Shore Line Railway, which passes through the Annex farm.

Some new deposits of black mud have also been opened up which is found of great value in making compost.

The crop yield has been more abundant than usual; hay quite up to the average, with potatoes and grain in excess.

I add a statement of the production for the year.

CLASS OF PRODUCE	QUANTITY
Potatoes	2,980 bushels
Turnips	3,850 "

Carrots	580	"
Mangolds	300	"
Beets	420	"
Parsnips	300	"
Oats	2,250	"
Buckwheat	120	"
Barley	75	"
Cabbage and Cauliflower	5,000	heads
Celery	22,000	"
Squash	240	"
Hay	120	tons
Straw,	170	tons
Fodder	150	"
Pork	4,895	lbs
Lard	225	"
Milk	62,500	quarts
Eggs	500	dozens
Wood	175	cords

Together with a large quantity of garden fruits and vegetables used in daily consumption.

In conclusion, I may say that I am strongly of the opinion that the results as compared with the outlay of this Department will not suffer in contrast with those of that of any similar Institution.

I have the honor to be

Your Obedient Servant,

W. A. QUINTON.

Saint John, N. B.

December, 31st, 1903.

**REPORT OF THE
CHIEF COMMISSIONER OF
PUBLIC WORKS.**

REPORT
OF THE
CHIEF COMMISSIONER OF
PUBLIC WORKS
FROM OCTOBER 31, 1903 TO NOVEMBER 1, 1904.

To His Honor, the Honorable Jabez B. Snowball,
Lieutenant-Governor of the Province of New Brunswick.

MAY IT PLEASE YOUR HONOR :—

I have the honor to submit herewith my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from October 31st, 1903 to November 1st, 1904.

Statements Nos. 1 to 4 inclusive, in Appendix A. are abstracts of all payments made for Great Roads, Bridges and Public Buildings.

Statement No. 5 shows payments to Bye Road Commissioners for the past year.

Statement No. 6 is a summary of all receipts and payments for the past year.

The following is a comparison of the expenditure for the past year, compared with the previous year :

No.	PAST YEAR.	PREVIOUS YEAR.
1.	Great Roads and Bridges.....\$95,219 02 Bye Roads,.....74,263 22 —————\$ 169,482 24	\$154,805 74
	Permanent Bridge account under Act of Ass. 3 Ed. VII. Cap XIII.	83,392 28 106,882 78
2.	Legislative and other Public Buildings and Gov't House,	10,939 69 9,696 44
3.	Provincial Hospital,.....	11,125 07 6,487 78

5.	Departmental Expenses,..	634 18 571 95
6.	Miscellaneous Expenses in- cluding Trav. Expenses, Printing and Binding....	1,700 80 1,595 65
	Mail, Legis. Contgt. etc.,..	405 08 499 49
	Expenses in connection with Highways Act,.....	73 30
	—————	—————
	\$288,530 49	\$290,672 91
In the foregoing amounts for Great Roads and Bridges, the proportion charged to annually appointed super- visors, is.....		
	\$10,763 23	
	—————	
	Carried Forward,	\$10,763 23

Brought Forward,	\$10,763 23
The larger portion of this is as heretofore for repairs to roads, culverts, etc. and commission.....	
Add amount expended on Bridges under special supervision as per statement No. 2, Appendix A.....	\$80,180 68
Mis. Special Expenditure as per statement No. 3,.....	4,275 11
	<hr/>
	\$95,219 02
Amount paid on account of permanent Bridges under Act of Ass. 3 Ed. VII. Cap. XIII. entitled "An Act to make further provision for Permanent Bridges and other works of a permanent character.....	\$83,392 28

LEGISLATIVE AND OTHER BUILDINGS.

The expenditure on Legislative Buildings and Public Offices for the past year amounts to	8,224 30
Normal School,.....	2,048 02
Provincial Hospital,.....	11,125 07
Government House,.....	667 37
	<hr/>
	\$22,064 76
Sloyd Rooms,	422 65
Rent St. John Room,.....	203 70
Local Improvement Ass.....	101 50
	<hr/>
	\$727 85
	<hr/>
	\$22,792 61

In view of the great expenditure on roads and bridges in 1902 and 1903, the expenditure on uncompleted contracts during the past year has been larger than usual and has caused a large over expenditure.

The expenditure on Public Buildings has also been largely increased, owing to many improvements being made to the Provincial Hospital and Annex, as reported upon by Mr. Quinton last year.

Quite a large expense has also been incurred on public buildings necessitated by many ceilings being renewed and furnaces giving out. The expenditure on buildings in connection with old Government House also necessitated quite an expenditure. This was considered advisable for the protection of the property and in order to keep tenants from leaving. If left vacant the buildings would naturally go to decay.

I have the honor to be, Sir,

Your obedient servant,

C. H. LABILLOIS,

CHIEF COMMISSIONER OF PUBLIC WORKS.

Department of Public Works, Fredericton, November 1st, 1904.

To The Honorable The Chief Commissioner of Public Works.

Sir:—

I would respectfully submit my Annual Report covering the details of the construction and repair work done during the current year at the Provincial Hospital under the direction of your Honorable Board, together with some recommendations for future action, which I have thought proper to submit for your consideration.

I shall first refer to the work completed at the

MAIN BUILDING.

The most important work there undertaken was the installation of a Hot Air Apparatus for the purpose of heating and ventilating the northern wing in place of an antiquated and defective steam heating system.

This system consists of an engine, fan and heater, together with the necessary galvanized iron pipe connections. The engine is a Buffalo single vertical, double acting size, 6x6 inches, and is directly connected to the fan shaft. It is mounted on a neat sub-base and runs noiselessly. The heater consists of seven sections of Buffalo sectional base fan system heater, each section being four feet, six inches long and six feet, four inches high and containing four rows of pipe in staggered rows.

It is so designed as to allow for expansion and contraction due to variation in the temperature, and to give the maximum heating effect from the steam used.

This heater is enclosed in a sheet steel heater case, securely bolted and stiffened with sheet steel connections from same to fan inlet. There is also a cast iron steam heater for branch connections to the seven bases.

The Fan is a Buffalo steel plate 3-4 housing steam fan with blast wheel 71 inches in diameter and 35 3-4 inches wide with inlet 46 1-4 inches in diameter and outlet 37 1-4 inches square. It is housed with heavy steel plate, the side sheets being No. 10 gauge and the scroll sheets No. 12 gauge with blast wheel of No. 16 gauge.

The workmanship on the plant seems to be superior; the installation has been done satisfactorily, and thus far the system is giving every satisfaction.

The apparatus was manufactured by the Buffalo Forge Company, and was installed by Messrs. T. McAvity & Sons of this city.

In the Laundry there has been placed a large three compartment washing machine and a large sized centrifugal extractor. The

woodwork has been renewed in one of the old washing machines, and some additional coils put in for heating and drying.

A new steel range of the John Bull pattern—one of the heaviest and strongest made in Canada—replaces that heretofore in use in the kitchen and now worn out.

All necessary renewals and repairs have been done to the Steam and Electric plants, notably the substitution of a new feed-water heater, the replacing of tubes in the high pressure boilers, with incidental repairs to low pressure boilers with engines and dynamos.

In the various wards a large amount of repairs has been made to the mason and carpenter work, plumbing and heating apparatus.

In wards C and F on the women's side new birch floors have been laid, repairs made to the wood and plaster work, and the heating apparatus put in an efficient condition.

The walls and woodwork of wards A and D have been painted, new floors laid in some bedrooms, and a steel ceiling placed in Nurses' dining room.

The water-closets of wards A, D, C and F have been refloored in cement and the plumbing renewed therein.

Repairs to the building rendered necessary by the installation of the new Hot Air plant have been attended to.

That portion of the yard set apart as a place of recreation for those patients who are not allowed free access to the grounds, has been enclosed with a substantial fence, a new front door hung at the main entrance, and a new floor laid down in the front hallway.

ANNEX.

A very important addition to the buildings of the institution is the hay and stock barn completed this year. This structure is 101 feet long and 40 feet wide, with basement 9 feet in depth, the walls of which latter are of concrete.

From the main barn extends an ell 19x20 feet, which contains steam feed-cooking tanks only, all of which, as well as the trough and

tank in the basement, are supplied with steam and water from the annex building by means of pipes laid under ground.

Over the stock entrance on the north side is a porch, and this forms a covered connection with the manure shed, the dimensions of which are 40x40 feet, while a roomy and convenient cattle stable is especially fitted for the housing of milch cows. All roofs and ventilators of this barn are of galvanized iron and this materially reduces the danger from fire.

The kitchen at the annex has been supplied with a new range, and two 55 gallon steam jacket boilers.

All repairs necessary to maintain the buildings and plant in proper and efficient shape have been done from time to time as needed.

RECOMMENDATIONS.

As the masonry in the outside walls at the Main Building has received no attention for many years, I would respectfully recommend that it be gone over and the necessary repairs effected.

A new roof is also required for the power house. It was the Department's intention to have built this during the season of 1904, but pressure of duties in other directions prevented.

At the Annex a roof is required on the west wing as set forth more in detail in my report of last year. A poultry house and piggery will have to be built to replace the present inconvenient and dilapidated structures.

The Department should also consider the matter of an improved water and lighting service. Among minor requirements is a washing machine for the annex laundry.

I must acknowledge the valuable assistance your directions and advice have been in carrying out the plans of the Department.

I have the honor to be, Sir,

Your obedient servant,

W. A. QUINTON.

Saint John, N. B., Dec. 31st, 1904.

To the Honorable, the Commissioners of the Provincial Hospital.

Gentlemen:—

I again have the honor to present my Annual Report of the of the farming operations at the Provincial Hospital for the rent year.

The usual amount of breaking up of new land, draining and g has been done, and I think the Department's judicious work l outlay have resulted in an increased value to its property.

The yield of the farm owing to a lackward season was below average.

The product was as follows:—

Potatoes	1,950	bushels
Turnips	2,900	"
Carrots	500	"
Mangolds	200	"
Beets	320	"
Parsnips	200	"
Oats	2,200	"
Buckwheat	98	"
Cabbage and Cauliflower,	6,000	heads
Celery	18,000	"
Squash	260	"
Hay	110	tons
Straw	115	"
Fodder	140	"
Pork	5,645	pounds
Lard	193	"
Milk	56,500	quarts
Eggs	280	dozen
Wood	150	cords

and a quantity of small fruits and vegetables used in daily consumption.

I have the honor to be, Sir,

Your obedient servant,

W. A. QUINTON.

Sir John, N. B.,

December 31st, 1904.

**REPORT OF THE
CHIEF COMMISSIONER OF
PUBLIC WORKS.**

REPORT

OF THE

CHIEF COMMISSIONER OF PUBLIC WORKS

FROM OCTOBER 31, 1904, TO NOVEMBER 1, 1905.

*To His Honor, the Honorable Jabez B. Snowball,
Lieutenant-Governor of the Province of New Brunswick.*

MAY IT PLEASE YOUR HONOR:—

I have the honor to submit herewith my Report of all Public Works done under the supervision of the Department, together with expenditure on the same from October 31st, 1904 to November 1st, 1905.

Statement Nos. 1 to 4 inclusive, in Appendix A are abstracts of all payments made for Great Roads and Bridges.

Statement No. 5 shows payments of unsettled balances of Bye Road Accounts.

Statement No. 6 shows expenditure on permanent Bridge Account under Act of Assembly, 3 Edward VII. C. XIII. and 5 Edward VII. C. XII.

Statement No. 7 shows expenditure on all Public Buildings for the past year.

Statement No. 8 shows payments on account of Steam Service for the past year.

Statement No. 9 shows the number of automobiles registered under the Act for the Registration of Motor Vehicles; also the registration fees collected and the expenses in connection therewith.

Statement No. 10 is a summary of all receipts and payments for the past year.

Appendix B contains the report of the Auditor General on accounts of Superintendents of Roads; and on the accounts of Ex-Superintendents of Roads.

Appendix C shows the Bridge Contracts awarded in 1905, with the amount of each tender received.

The following is a comparison of the expenditure for the past year, with that of the previous year.

No.	PAST YEAR.	PREVIOUS YEAR.
1 to 4 Great Roads and		
Bridges.	\$123,390 99	
5. Bal. on Bye Roads.	49,735 77	
	<hr/> \$173,126 76	\$169,482 24
6. Permanent Bridge account		
under Act of Ass. 3 Ed. VII.		
Cap. XIII. and 5 Ed. VII.		
Cap. XII.	87,393 44	83,392 28
7. Legislative and other Public		
Buildings and Gov't House.	12,378 23	10,939 69
Provincial Hospital.	16,337 98	11,125 07
Rent St. John Rooms.	161 00	203 70
Local Improvement.	180 00	101 50
Stoyd Room.		422 65
Steam Navigation.	12,834 62	10,050 00
	<hr/>	<hr/>
Carried Forward,	\$302,412 03	\$285,717 13

	Brought Forward.	\$302,412 03	\$285,717 13
9.	Automobile Account.....	81 25	
10.	Departmental Expenses....	694 91	634 18
	Miscellaneous Expenses in- cluding Printing and Adv., Trav. Expenses, etc.....	1,831 15	1,700 30
	Mail, Legis. Contgt. etc....	220 65	405 08
	Highways Act.....	764 87	73 30
		<hr/> \$306,004 86	<hr/> \$288,530 49
In the foregoing amounts for Great Roads and Bridges, the proportion charged to annu- ally appointed superinten- dents under the new High- ways Act is.....			
		\$30,151 83	
The larger portion of this is as heretofore charged to acc. for repairs to roads, culverts and commission.....			
Add amount expended on Bridges under special supervision as per statement No. 2, Ap- pendix A.....			
		87,070 73	
Mis. Special Expenditure as per statement No. 3.....			
		3,446 89	
Bal. due Ex-supervisors.....			
		2,721 54	
		<hr/> \$123,390 00	
Amount paid on account of per- manent Bridges under Acts of Ass. 3 Ed. VII. Cap. XIII. and 5 Ed. VII. Cap. XII. en- titled "Acts to make further provision for Permanent Bridges and other works of a permanent character.....			
		\$ 87,393 44	

LEGISLATIVE AND OTHER BUILDINGS.

The expenditure on Legislative Buildings and

Public Offices for the past year amounts to \$	8,182	09	
Normal School.	3,547	92	
Government House.	648	22	
Provincial Hospital.	16,337	98	
	-----		\$28,716 21
Rent St. John Rooms.	161	00	
Local Improvement	180	00	
	-----		341 00

			\$29,057 21

In view of the new Highways Act coming into force this year it left a great number of unsettled accounts both on account of Great Roads and Bye Roads. This caused quite a large over expenditure on our annual grant, which is to be regretted.

A great many of our Superintendents report that the Municipal Tax will in future about cover the cost of keeping our roads in repair and assisting very materially in building most of the small bridges in their Districts. If this is the case the Government can be congratulated on the efficiency of the new Act.

The expenditure on Public Buildings has increased to a large extent in the past year. This was caused to a large extent by expenditure on the Provincial Hospital, a statement of which will appear in Mr. Quinton's report on this Institution. Also a larger expenditure than usual was caused by renewing furnaces in the Legislative Building and new Departmental Building.

I have the honor to be, Sir,

Your obedient servant,

C. H. LABILLOIS,

CHIEF COMMISSIONER OF PUBLIC WORKS.

Department of Public Works, Fredericton, November 1st, 1905.

To The Honorable, The Chief Commissioner of Public Works.

Sir:--

Agreeable to your instructions I respectfully submit my report of the building operations at the Provincial Hospital during the year 1905 under the direction of your Honorable Board, specifying in detail both construction and repair work and embodying certain recommendations for your consideration.

At the Main Building the most important work done was the extension of the Buffalo Forge Company's System of Heating and Ventilating to the southern wing. This system, the installation of which in the northern wing you authorized last season, has proved so satisfactory that the Medical Superintendent, Dr. Anglin, felt justified in recommending its further adoption. The contract has been satisfactorily completed, and the entire plant fully meets its requirements.

With this system have been placed two small automatic pumps for pumping condensed water from the coils used in connection with the fans. The use of these pumps causes a material saving in fuel.

The basement ward, known as No. 7, has been thoroughly overhauled and fitted with hardwood floors and steel ceilings. The plaster has been renewed, and the walls and ceilings painted.

In Ward No. 1 hardwood floors have been laid; new doors hung, the plumbing renewed, steel ceilings placed, the plaster repaired, and entire ward painted.

The woodwork and plaster in No. 2 Ward have also been repaired and repainted.

On the main doors of several of the Wards new locks of a standard pattern and similar to those used in other Hospitals have been placed.

The room formerly used by the seamstresses has been converted into a general Dining Room for employees, refloored in hardwood, furnished with a large pantry with sink piped for hot and cold water and repainted.

In the kitchen a new range has been set up as well as a large steam jacket cooking boiler of 80 gallons capacity.

All repairs necessary to keep the steam and electric plants efficient and the plumbing in good order, have been effected.

The exterior of the building has also received considerable attention, a steel roof being placed on Wards 1 and 2, the cornices repaired and repainted, and the slate renewed wherever necessary.

On the grounds a small green house has been built, the employees' houses repaired and repainted, and a number of 32 cp. lamps installed for lighting the approaches to the building. At the ANNEX an additional horse barn with large box stalls has been so constructed as to ensure good lighting and ventilation; the piggery so extended as to add to its size and convenience, and a steel roof placed over the shingles of the main barn. Amongst the repairs at the Annex may be mentioned those on the east wing veranda and the main steps which have also been repainted.

The plumbing has also been gone over, and a brick floor laid in the Bathroom of the west wing.

During the present season, the large amount of extra-ordinary work that has been done, notably in connection with the heating and ventilating system, the roofing and ceilings of the buildings, as well as other work which could not be done by our regular staff, must necessarily increase somewhat the usual annual expenditure; but I am of the opinion that upon careful inspection your honorable Board will conclude that your appropriation has been prudently and economically expended.

RECOMMENDATIONS.

The work of renovation and repair now being carried on at the Main Building will require to be continued, the outlay for which will be considerable.

On the Annex building, leaky wooden roofs should be replaced

with steel, some floors and ceilings renewed and a Poultry house built. The material for this latter and for the completion of the piggery are on the ground.

I might again mention the pressing need for an improved water and lighting service at the Annex.

Your instructions and advice have been of great assistance to me in carrying out the plans of your department.

I have the honor to be, Sir,

Your obedient servant,

W. A. QUINTON.

St. John, N. B.,

Dec. 31st, 1905.

To the Honorable, the Commission of the Provincial Hospital.

Sir;—

I beg to submit my Annual Report upon the Agricultural operations of the Provincial Hospital during the season of 1905.

Under my direction the staff and inmates have brought in and have now in readiness for next season's planting about 20 acres of new land. This is well adapted for both root and grain crops, and when cultivated cannot fail to increase our yield very materially. The usual amount of fencing and draining was undertaken.

With respect to the quantity and quality of the crop, I would say that the potatoes were struck with blight quite early in the season,

and a considerable quantity rotted after being placed in the cellar. The remainder of the root crop was a good average one.

I may add that although our land is generally well adapted for the growth of grain and root crops other than potatoes, we have very little land suitable for raising these latter.

The product was as follows: -

Potatoes,	2,250	bushels.
Turnips,	2,143	"
Carrots,	713	"
Mangolds,	70	"
Beets,	497	"
Parsnips,	295	"
Oats,	2,050	"
Buckwheat,	95	"
Cabbage and Cauliflower,	7,000	heads.
Celery,	13,000	"
Squash,	300	"
Hay,	118	tons.
Straw,	110	"
Fodder,	160	"
Pork,	6,550	lbs.
Lard,	226	"
Milk,	70,434	quarts.
Eggs,	3,662	dozen.
Wood,	160	cords.

with vegetables and small fruits used daily.

On the subject of our live stock, I might say that although we have about 70 head of cattle, these are all our own raising with the exception of a few pure bred supplied by Hon. Mr. Tweedie a few years ago, and as a consequence our stock has become too much inbred.

As our annual consumption of milk is now very large, to keep up the supply of milk cattle it is very necessary to provide some new Ayrshire stock for breeding purposes.

I have taken the liberty of calling the attention of the Commissioner of Agriculture to this requirement, and I hope for his favorable consideration.

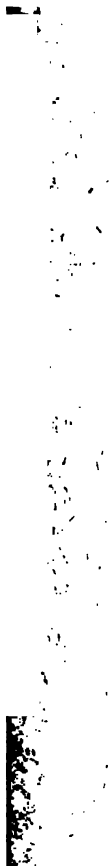

I have the honor to be,

Your obedient servant,

W. A. QUINTON.

Saint John, N. B.

December 31st, 1905.
